PRESENTATION REQUEST (Please select one)

- Intro to the Office of Sustainability : general presentation about programing and ways to get involved.
- Subject Deep Dive: you have reviewed the Climate Action Plan and would like us to dive deeper into specific goals or initiatives.
- Project Based Challenge / Living Laboratory: you would like to collaborate with the Office of Sustainability to develop a problem statement that your students are working to solve.

Subject Deep DiveIf you selected “*Subject Deep Dive*” please answer the following questions:

What initiative/theme would you like the presentation to focus on?

What themes have you or will you explore related to the initiative/theme?

Why do you feel that it is important for the Office of Sustainability to present to your class?
What are you hoping the students will learn from the presentation?

Office of Sustainability

Project Based Challenge / Living Laboratory:

If you selected “*Project Based Challenge / Living Laboratory*” please note that the Office of Sustainability will need to meet with you 30 days prior to the presentation day in order to develop at challenge. Please provide your general availability below (example: Tuesday’s between 1-3):

What would you like the challenge or project to address?

What themes have you or will you explore related to the challenge or project?

What deliverables will be generated once the challenge or project is completed (example: presentation, literature review)?

When will the final presentation take place?
